

Raphael

Raf Meter

REMOVABLE MEASURING UNIT IRRIGATION WATER METER

RMI

DN50 – DN300

FEATURES:

- Designed for Irrigation application to avoid damage due to Solid debris such as stones, Weeds, etc.
- Removable and Interchangeable Measuring Unit – for maintenance purpose. The same unit for all sizes.
- Dry type – magnetic coupling register
- Very Low head loss
- Accuracy: acc. ISO4064 (2005) R20
- Max. Pressure and temp.: MAP 16, MAT 50
- Installation: 10D Upstream, 5D Downstream required
- Optional Pulse Output via reed switch on request
- Lockable Metal Register Cover and Lid
- Flange drilling acc. ISO, BS, ANSI etc.
